DEMORSE'S INVICORATING CORDIAL

TOR GENITAL DEBILITY, IMPOTENCY, INCONTINENCE, OR NOCTURNAL EMISSIONS, &c.—The actonishing success which has attended this invaluable medicine, for Loss of Muscular Energy, Physical Leastinde, and General Prostration, or any of the consequences of youthful indiscretion, or indulgence of the passion in riper years, renders it the most valuable preparation ever discovered. In fact, as a remedy for the above complaints, it stands unrivalled and alone. There is no other reliable remedy, or any that has authentically received the sanction of the Medical Faculty. The WONDERFUL VEGETABLE PRCDUCTION of which this medicine is composed has been tested, and its virtues proclaimed, by the highest names of the faculty of London, Paris, and the chief cities of Europe, as well as by ominent Physicians in tilis country. It is the only infallible remedy for NERVOUS, HEAD, and MIND COMPLAINTS—the mental physic so long sought for and never before found—the only agent that can administer to MIND DISEASES. It will remove all nervous affections, DEPRESSION, EXCITEMENT, incapacity to study or business, less of MEMORY, CONFUSION, thoughts of self-destruction, fear of insanity, &c. It will restore the appetite, renew the health of those who have destroyed it by some that these disorders, emissions, &c., were incurable. This, however, is not the fact.

DR. MORSE'S INVIGORATING CORDIAL has cured, and is constantly curing, these complaints—relieving the mental and bodily incapacity of the unfortunate sufferer, as

and is constantly curing, these complaints—relieving the mental and bodily incapacity of the unfortunate sufferer, as the following testimony of the names received will conclu-sively show

the following testimony of the names received will conclusively show:

Dr. Woodward, of —, Massachusetts Insane Hospital, writes of one of his patients being cured by using this Cordial thus: "It gives me pleasure to inform you that one of my patients, while in Boston, precured some of your Cordial. He tells me that he has not had a single emission since he commenced taking it, while before he had two or three a week. When he applied to me," mays Dr. W., "It thought it hardly possible for him ever to regain his full strength. I prescribed the usual medicine used in those cases in the hospital, but they had no effect. In the mean time he purchased some of your Cordial, which has effected a cure I am sure no other medicine would. I shall ever recommend it, whenever an opportunity occurs."

The nature of the maisdies relieved by this Cordial are generally such as to leave the publication of certificates of ourse out of the question. The proprietor could produce a host of the most conclusive testimeny to show that the great reputation it enjoys was not accidentally obtained, but is firmly based upon its positive and apparently miraculous virtues. In all directions are to be found the happy parents of healthy offsprings, who would not have been so but for this extraordinary preparation. And it is equally potent for many diseases for which it is recommended.

THE MEDICAL JOURNALS have not, in a single instance that has been authenticated, given their sanction to any other preparation for the above

have not, in a single instance that has been authenticated, given their sanction to any other preparation for the above complaints. It has, in many violent and desperate cases, effected radical cures, after patients had been abandoned, and their condition pronounced hopeless by medical practitioners of high professional character.

THE COMMAND EXPRESSION of those who have use the COMMAND EXPRESSION of those who have use the Command Expression is used to the incredulous in regard to its merits, it is not of the incredulous in regard to its merits, it is not of the incredulous in regard to its merits, it is not the incredulous in relief, when it purchased some of your Cordial. I had no relief, when it purchased some of your Cordial. I had no emissions since, although it is not three weeks. I am satisfied that the half a dozen bottles I took will cure me."

took will cure me."

Another says: "I had consulted several distinguished physicians. Some said I could not be cured; others procured this thing and that; but I found no relief until I procured some of your Cordial. I must say is completely

odily suffering."

OkuTiON.—Ask for Dr. Morse's Ordiol, and take no other, as there are worthless imitations which its unrivalled excellence, fame, and popularity have brought into the market. It will not hurt the most delicate female, but do good. Beware of all other Cordials, &c., and try only tiffs.

It is put up in pint bottles, with the words Dr. MORSE'S INVIGORATING CORDIAL blown on the glass. Price \$3 per bottle; two bottles, \$5; six bottles, \$12; and \$24 per dozen.

N. B.—Important advice accompanying each bottle.

OFFICE ROOMS FOR RENT,-Four desirable new second-story Rooms for rent, situated on 7th street, opposite the National Intelligencer office. To good, permanent tenants the rent will be moderate. Apply GEO. W. COCHRAN.

A CURE WARRANTED, OR NO CHARGE.

Young Men especially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have antranced listening Senates with the thunders of eloquence, or waked to ecstacy the living lyre, may call with full confidence.

MARRIAGE.

Married persons, or those contemplating marriage, being aware of physical weakness, should immediately consult Dr. J., and be restored to perfect health.

Office, No. I South Frederick street; Baltimore, Maryland, on the left hand side, going from Baltimore street, seven doors from the corner. Be particular in observing the name and number, or you will mistake the place.

DR. JOHNSTON,

Member of the Royal College of Surgeons, London, Graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been append as from the counce, Faris Philadelphia, and say where has effected some of the most autonishing curse that were ver known. Many troubled with ringing in the ears and head and the production of the most autonishing alternative with derangement of mind, were sured immediately.

TAKE PARTICULAR NOTICE

Somety. DR. JOHNSTON'S INVIGORATING REMEDY FOR OR-GANIC WEAKNESS.

choly reflection that the happiness of another becomes blighted with our own. Let no false delicary prevent you, but apply immediately.

He who places himself under the care of Dr. Johnston may religiously confide in his honor as a Gentleman, and confidently rely upon his skill as a Physician.

TO STRANGERS.

The many thousands cared at this institution within the last ten years, and the numerous important Surgical Operations perfermed by Dr. J., witnessed by the Reporters of the papers and many other persons, notices of which have appeared again and again before the public, is a sufficient guaraty that the afflicted will find a skilful and honorable physician.

the afflicted, especially strangers, could not fall to fall into the hands of those imprudent, boasting impostors—individuals destitute of knowledge, name, and character—pediars, shoemakers, mechanics, &e., advertising themselves as physicians; ignorant quacks, who keep you trilling month after month, as long as possible, and in despair leave you with ruined health to sigh over your galling disappointment. It is this motive alone that induces Dr. J. to advertise, for he alone can care you. To those unacquainted with his reputation he deems it necessary to say, that his credentials or diplomas always hang in his Office.

Weakness of the Organs immediately cured, and full vigor restored.

vigor restored.

DR. KITTO'S POPULAR CYCLOPÆDIA

DR. KITTO'S POPULAR CYCLOPÆDIA
of Popular Literature.
CONDENSED from the larger work. Bp John Kitto, D.
D., author of "Pictorial Bible," "History of Palestine,"
"Scripture Daily Readings," &c. Assisted by numerous distinguished Scholars and Divines, British, Continental, and American. With numerous illustrations. One volume, cotave, 812 pp. Cloth, \$3; Sheep, \$3 50.

The popular Biblical Cyclogadia of Literature is designed to furnish a dictionary of the Bible, emboslying the products of the best and most recent researches in biblical literature, in which the scholars of Europe and America have been engaged. The work, the result of immense labor and research, and enriched by the contributions of writers of distinguished eminence in the various departments of sacred literature, has been, by universal consent, pronounced the best work of its class extant, and the one best suited to the advanced knowledge of the present day in all the studies connected with theological science.

The pictorial illustrations, amounting to more than three hundred, are of the very highest order of the art.

Letters from Hon. Theodore relinghuyen, Judge McLean, Edward Everett, Robert C. Winthrop, Simon Greenlesf, and more than fifty of the most distinguished Ministers and Laymen of different religious denominations in the country have been received, recommending the work in the strongest terms as admirably sispted to Ministers, Sabbath School Taschers, heads of families, and all Bible Students.

The Old Bay State.

Our opponents pretend to believe that the ovement will enable a coalition of Loos and Freesoilers to defeatus in Massachusetts; but a writer in yesterday's Republic sets that

In 1850, when a Democratic Governor was first elected by a coalition legislature, the Whigs had a plurality of 20,875 votes. In 1851, when the same Democratic Governor was re-elected by the same coalition machinery, the Whigs had a plurality of 20,586 votes. The electors are chosen by a plurality, and the election will be conducted in the same manner as was the Gubernatorial election of those two years—each of the three parties running a separate electoral ticket; and, if there was no division in the Whig party, there is no doubt the Whigs would make an increase upon their yote of those two years. It remains, then, for us to determine what effect the Webster movement will have upon the Whig yets, and how much it will be likely to reduce the Whig plurality in the State. The Webster movement is confined exclusively to Boston and a few adjacent towns, finding little or no favor beyond five or six miles from the city, and from the most reliable sources of information there is no possibility of their casting over five thousand, and probably not over three thousand votes; and we feel confident that we shall nearly, if not quite, make up for this loss in other parts of the State. Lem In 1850, when a Democratic Governor was first not over three thousand votes; and we feel confident that we shall nearly, if not quite, make up for this loss in other parts of the State. I am well aware that they claim they shall cast from 20,000 to 30,000 votes, but they have no such expectation; and it is already rendered certain that in more than three-fourths of the towns no such votes will be cast; and in a large portion of the remainder only from one to five. The Whigs of other States may rest assured that in no event of other States may rest assured that in no event will Scott's plurality be less than fifteen thousand; and that there is every probability that it will reach twenty thousand votes.

BOSTON, October 15, 1852.

Baltimore and Washington Railroad. From the annual report of the President and Directors of the Baltimore and Ohio Railroad Company we extract the following brief notice of the Washington branch:

"The operations of the Washington branch have been conducted with their usual results. "The receipts from passengers, mails and mer-chandise, have been \$348,622 76, showing the handsome increase of \$39,087 01, over last year.

The expenses have been \$132,385 31, a decrease of \$14,295 85 in this item. "The net revenue is thus shown to be \$216,-237 45, out of which the Board have declared a dividend of four per cent. for the half year ending 30th September, payable on and after the 15th instant. This, added to the dividend in April last,

will make eight per cent. for the fiscal year.

"The bonus of the State during the half year amounted to \$31,842 32, and for the whole year, to the large sum of \$59,826 69—an interest at six per cent. upon a capital of \$1,000,000. Her receipts from this road, during the fiscal year, have been more than 18 per cent. upon her investment of \$550,000 !! "The new station at Washington is now entirely completed—and compares favorably with any in the Union, for comfort and convenience of arrangement. The Company have been sub-

jected to much additional expense, owing to the roughness of the location, and the necessity for excavation and grading, as well as a heavy tax for improving the streets and avenues communi-cating with the city.

"The passenger trains have been moving with increased speed, and an uncommon exemption from accident, considering the number of miles run. The steady increase of Southern travel, in the face of the temptation held out by other routes, coupled with its improving local business, show the value and importance of this branch;

and its activity will be greatly augmented on the completion of the main stem to the Ohio river. completion of the main stem to the Ohio river.
"Indeed it is now evident that the Washington branch must always rank among the best paying oads in this country, notwithstanding the heavy onus to which it is subjected by the State, and which must operate as a serious obstacle to the eccommodation and fostering of the travel, by the adoption of low rates of fare.'

In this brief exhibit is involved a severe rebuke o the State of Maryland. While other States, and the concurring sentiment of the American people, favor the fostering of public avenues of transit even by the bounty of the State, Maryland keeps up the enormous charge of more than 41 cents a mile in order that she may realize a profit of nearly 19 per cent. upon an investment of a little over half a million dollars; and this too though Baltimore and Washington are both suffering in their interests, in common with the whole travelling public, from this discreditable extortion.

THE TRUANT LAW OF BOSTON.—By this law which was passed at the last session of the Legislature, needless absence from school is made a crime. A child who, either by its own or its parents' fault, is guilty of that crime, may be taken from its natural protectors, and placed in the House of Reformation. To carry this law into effect, the city has been divided into three districts, and each district placed under the superintendence of an officer, whose sole duty it is o look after the neglected and destitute children of his district, compelling the younger to at-tend school, and procuring regular employ-ment for the elder. These officers have entered upon the discharge of their duty, and have already secured the attendance at school of a large number of children, hitherto ac-customed to run the streets. They intend to keep a record of all the destitute children of the city, and to open an office at the City Hall, where persons is need of apprentices may learn the character and history of each, and make their school room, at her residence, Mrs. Stettlinius's, between 4½ and 6th streets, Louisiana avenue.

Exercises.—Morning: English and French elementary, and liberal studies of learning, Arithmetic and Geography, our own school authorities. We are not yet prepared to say, that it deserves more than their pared to say, that it deserves more than their pared to say, that it deserves more than their consideration; for interference by the State be-tween a child and its "natural protectors" is tween a child and its "natural protectors are the rather too serious a matter to be decided upon hastily. "What God hath joined let no man put asunder," is a maxim that seems to apply in this care; it is a maxim that seems to apply in this care; to young ladies in her care. Charges in each department will be found comparatively

SINGING AT WORK .- Give us, O give us the man who sings at his work! Be his occupation what it may, he is superior to those who follow the same pursuit in silent sullenness. He will do more in the same time-he will do it betterhe will persevere longer. One is scarcely sensi-ble of fatigue whilst he marches to music. The very stars are said to make harmony as they revolve in their spheres. Wondrous is the strength of cheerfulness-altogether past calculation its powers of endurance. Efforts to be permanently useful must be uniformly joyous.—Home Jour, John E. Owens, the manager of the Baltime

Museum, arrived in Boston on Thursday, by the steamship America. He has been on a pleasure rip to Europe during the last six months. Nothing humbler than ambition when it

City Ordinances.
